FORESTRY HOSE BACKPACK

Heavy Duty Canvas

Range of Forestry Hose Backpacks containing lengths of percolating or non-percolating hose.

Forestry Backpacks used for the personal transportation of fire hose are colour coded for easy identification on the hose contained within and made from heavy duty canvas.

These are available in 3 standard colour configurations, but custom options available on request.

The Backpacks are also available to DOC specs with leather straps.

SKU:7604-1

SKU:7605-1
