

RE&SAFET **TRUSTED SINCE 1913**

8490 FOAM EXTINGUISHERS

Filling Instructions

- 1: Unscrew the extinguisher head
- 2: Add 8.4 litres of water first
- 3: Add 600ml foam (total 9 litres - there is a mark on the pickup tube to indicate the correct level)
- 4: Re-seal the head assembly by screwing down
- 5: Apply air pressure to the tyre type valve in the head until the pressure gauge needle goes into the green
