

Structural

Bristol's entry level structural fire coat and trousers features a short style coat designed with ergonomic fit. An adequate overlap with the trouser top avoids gapping when stretching and bending.

Combining DuPont™ Nomex® Tough (Delta T) with Gore-Tex Fireblocker offers Level 2 performance to EN 469:2005.

Available in a range of colours, including blue, orange and yellow, the B-Tech comes in 28 male and female sizes. Available with silver reflective or triple trim reflective.

B-Tech A

B-Tech B
