

Lithium Powered

The PolyTac 90™ LED is a super bright and compact right angle personal light with C4® LED technology. This light offers microprocessor controlled high and low intensity modes, strobe mode and integrated carabiner style D-ring for a variety of attachment methods. Operates on CR123A Lithium primary cells. Available in black and yellow.

SKU:88831

SKU:88830

FEATURES:

- High impact super tough nylon polymer for exceptional durability and sure grip
- All openings o-ring sealed for water resistance
- Borofloat glass lens, gasket sealed
- C4® LED technology, impervious to shock with a 50,000 hour lifetime
- Textured parabolic reflector produces a smooth beam hotspot with optimum peripheral illumination to aid in navigation
- Head mounted push button switch provides one handed momentary or constant “on” operation. Fast double click from “off” to activate Strobe mode; fast triple click from “off” to activate Low mode
- 1 metre impact resistance tested
- IPX7 rated design; waterproof to 1 metre for 30 minutes
- Fully rotatable/reversible/removable clip to allow a variety of mounting positions
- LED Solid State Power Regulation provides maximum light output throughout battery life
- Serialised for positive identification
- Gear keeper option with tether features spectra nylon line with 90cm extension; 170g retraction force

SPECIFICATIONS:

Dimensions: Height: 13.3cm Diameter: 3.18cm
Body Diameter: 2.54cm

Weight: 116g with batteries

Battery: 2 x 3V CR123A Lithium batteries

Approvals: European Community Directives **CE**
