

Scotty Air Aspirating Foam Nozzles are manufactured from the latest engineering grade composite polymers for resilience and durability on the fire scene.

Designed with standard 38mm (1½") NPSH Male Fire Hose threads. They can be adapted to a 38mm (1½") coupling on a fire hose by either a Forestry Quick Connect female adaptor, a threaded Storz adaptor or by a Scotty Double Female adaptor.

Available in 5 flow rates:

- 15 gpm (SKU:4221)
- 30 gpm (SKU:4205)
- 50 gpm (SKU:4206)
- 70 gpm (SKU:4231)
- 95 gpm (SKU:4246)
