

with Water Hand Pump

The Scotty 4000-BRAVO Backpack is designed to be a simple, portable reservoir for water concentrate. It provides the wearer with a safe and comfortable way to carry liquids used during fire operations. The backpack system consists of an outer shell with a removable inner bladder. The outer shell is made in a high-visibility yellow, ballistic nylon fabric and is extremely durable and UV resistant. The BRAVO comes with an ultra comfortable shoulder harness system. It uses high strength nylon webbing for the fully adjustable shoulder, sternum and waist straps. The high-visibility yellow colour allows the Scotty Backpack to stand out through smoke and foliage. Each backpack has a 10cm wide filled port with lid and a standard ¾" garden hose thread for an outlet.

SKU:4082
