

HANDLING BAG LOAD PAD

Flexible load distribution element for rescue rams and spreaders. Comparable to rigid sill attachments and pressure plates, the bag can adapt to the contour underneath.

- Optimal accessory to the rescue cylinder and spreader during accident rescue.
- Flexible load bag that adapts to the ground for the best possible support surface.
- Load distribution possible even in confined spaces, e.g. in the foot area.
- Especially for truck rescue flexible and purposeful applicable.
- Additional replaceable protective mat for sharp-edged application areas.
