

Flashing Rechargeable Safety Beacon

1. High lumen output LED
2. High level of visible distance 1km
3. PCB anti-corrosive & durable
4. High strength transparent PC
5. Lattice Reflective label
6. Protects against battery leakage. Shockproof
7. Silicone switch, waterproof & durable
8. Built-in battery protection box. Shockproof
9. High strength side clamp.
10. Silicone O-ring IP68 waterproof
11. Magentic end cup

The LED Safety Flashing Rechargeable Beacon can be used in traffic control, airport, marine, outdoor, emergency rescue and anywhere requiring features such as high-visibility, waterproof, dust-proof drop resistant and anti-rust. Comes with Magnetic base.

Specification

Model 6930-A	Amber Flashing
Model 6930-R	Red Flashing
Accessory - 6931	Rubber Base
Visable Distance	>1km
Battery Type	1 lithium 26650 rechargeable battery
Battery Life	>30h
Working Voltage	2.5v-6v
Working Current	90mA-450mA
Working Temperature	-40 - +85oc
Illumination Colour	White light (1W)
LED Life	>50k h
Protection Level	IP68
