Interconnectable 10 Year Smoke Alarm

SKU: 7477

The Advanced electronics with a Photoelectric smoke sensing chamber provide early detection of fires. Using wireless transmission technology up to 20 alarms can be connected with a maximum range of 100m to give the whole house early warning of a fire not just the room the fire has started.

The alarm is powered by a long life 10 year lithium-ion battery. Easy to install long life fire safety solution for your home.

Dimensions: 100mm x 36mm

SKU: 7477-R
