PSL
FIRE & SAFETY
TRUSTED SINCE 1913

Welcome to PSL Fire & Safety

Phillips & Smith Limited (PSL) is 100% New Zealand owned and operated since 1913.

At PSL, our expertise comes from a huge pool of knowledge of the Fire and Safety industry, both from our talented staff and the extensive list of internationally recognised suppliers we have relationships with.

Your Safety is Our Business underlines our passion toward quality and excellence in such a life-critical industry, bringing products, service and knowledge to our customers and numerous fire and safety organisations we work with.

Look for the PSL Stamp for customised products designed and manufactured by our engineers. A majority of these products can be modified to suit your requirements including materials and finishes.

Please note that this catalogue is current at date of print however PSL Fire & Safety reserve the right to add or delete products or services without notification.

If you can't find what you're looking for please contact us directly and we'll do our best to accommodate your needs!

Fire Suppression Systems NZ

The primary purpose of any fire equipment is to save lives, secondary is to save property. That said often the two purposes can be interlinked, but simply if you reduce the risk to one you reduce the risk to the other.

Normally a fire suppression system is installed to target a risk that has been identified as potentially damaging to people or property & in some cases it could be a piece of irreplaceable & often crucial machinery.

Sometimes there can be other reasons for installing the fire suppression systems such as a requirement that they be installed to operate in certain forests, underground mining, landfills, tunnels, flammable environments & materials or for regulatory reasons.

As a New Zealand owned company we take great pride in being able to help to protect people & property by helping to create & maintain safe environments for those working in our industrial sector. An integral part of this is the fire suppression division which can offer our clients support by ensuring that these fire suppression systems remain fully functional through the whole of their operational life.

Developing Fire-Fighting solutions that can cater for specific risks or meet particular requirements is our speciality. The potential benefits of saving people, plant, machinery & property are significant as is the ability to avoid or at least minimize disruption to your businesses.

Forestry – Whether you need a system for a work ute or a harvesting machine PSL Fire and Safety offers fire suppression systems that are ideally suited to the demands & requirements of New Zealand's forestry environment.

Mining – PSL Fire and Safety offer a range of intrinsically safe fire suppression systems that are widely used in mining operations & can be tailored to suit the needs of most clients.

Construction – whether you are protecting fixed or mobile plant PSL Fire and Safety can cater for your fire suppression system requirements.

Landfills – Landfills have decomposing materials releasing flammable gases such as methane, materials lodging both in as well as on vehicles machinery & all manner of products on site an intrinsically safe & effective fire suppression system that can operate 24hours 7 days a week is a must. It can help to protect people, plant, machinery & property from the potential damage & disruption a fire can cause, especially as a fires can & have broken out after hours due to material trapped on a machine smouldering before igniting after the machine is parked up.

Marine – when at sea a fire can be devastating as unless your on-board safety systems including your Fire-Fighting systems are up to task you can be left vulnerable to the effects of a uncontrolled fire. It is vitally important that your fire suppression systems are not only provided but also maintained.

Heavy Transport – with heavy transport operations often there is an inherent risk of fire which can be associated with these activities. Heavy transport vehicles can often be operating for long periods of time, with a variety of different materials, sometimes in adverse conditions & be subject to a variety of stresses. These conditions can increase the risk of fire affecting both yourself & others, so taking pro-active steps to reduce your vulnerability to fire can be a sensible & beneficial approach.

For more information please go to our website <https://www.pslfireandsafety.co.nz/pages/fire-suppression-systems> or contact Suppression Systems Manager - Steve Smith on +64 21 613 131

70mm FI x 70mm FI Double Pull	SKU:057400

Also available in Gun Metal.

For forestry adaptors see page 24. Wide range of standard thread sizes available in MBSP, FBSP, MI and FI options or can be customised to suit your application.

70mm MI x 25mm (1") MBSP (SKU:059500)

70mm MI x 19mm (¾") MBSP with Brass Tap (SKU:088000)

70mm MI x 64mm (2½") FBSP (SKU:057000)

70mm FI x 50mm (2") MBSP (SKU:058300)

70mm FI x 64mm (2½") MBSP Double Pull (SKU:037900)

Single Lever Adaptors

Single lever adaptors have been manufactured to ensure connections to hose are to the highest safety recommendations. Precision machined in either fully heat treated polished aluminium alloy, or gun metal with bright chrome plated finish. SNZ PAS 4505 / BS336 standard.

Models

70mm FI x 64mm (2½") FBSP

- Light Alloy (SKU:065800)
- Gun Metal (SKU:065900)

Options

Can also be manufactured in 2½" (64mm) FBI x customer required thread.

ADAPTORS / FITTINGS / FIRE HARDWARE

Round Thread Adaptors

These fittings are ideal for accessing water from water tanks direct to fire trucks. Precision machined in heat treated light aluminium alloy. SNZ PAS 4509:2003 standard.

Models

- 100mm FRT x 100mm FBSP Swivel (SKU:059000)**
- 100mm FRT x 100mm MBSP Swivel (SKU:058900)**
- 100mm FRT x 75mm MRT Swivel (SKU:059100)**
- 100mm FRT x 70mm MI Fixed (SKU:057600)**
- 140mm FRT x 100mm MRT Fixed (SKU:058500)**
- 100mm FRT x 75mm Storz Fixed (SKU:60102)**
- 100mm FRT x 100mm Storz Fixed (SKU:60100)**
- 100mm MRT x 100mm Storz Fixed (SKU:60099)**
- Firefighting Connection irrigation pipe c/w single lever adaptor (SKU: 090500)**

Options

Other thread combinations available upon request.

100mm FRT x 100mm FBSP Swivel (SKU:059000)

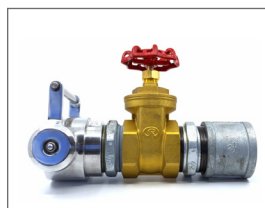

100mm FRT x 100mm MBSP Swivel (SKU:058900)

100mm FRT x 75mm MRT Swivel (SKU:059100)

100mm FRT x 70mm MI Fixed (SKU:057600)

Firefighting irrigation pipe SKU: 090500

140mm FRT x 100mm MRT Fixed (SKU:058500)

100mm MRT x 100mm Storz Fixed (SKU:60099)

Fire Fighting Tank Adaptor Kit

These adaptor one stop kits are ideal for accessing water from water tanks direct to fire trucks. 2 standard tank kits available, all with 100mm FRT x 100mm FBSP swivel head adaptor and supporting bracket. SNZ PAS 4509:2003.

Models

Butterfly Valve (SKU:60021)

Options

Fitting comes standard with 100mm FBSP but can be supplied with 100mm MBSP or 100mm table D or E flange.

Butterfly Valve (SKU:60021)

70mm MI x 25mm (1") MBSP (SKU:60023)

Blank Caps

High quality Blank Caps in a wide range of configurations for pumps, standpipes, hydrant inlet and outlets, and fire appliances. Precision machined in heat treated light aluminium alloy or gun metal to SNZ PAS 4505 / BS336 standard with a chrome plated or polished finish. Some models come complete with pressure release and connecting wire/chain.

Models

- 70mm FI - Light Alloy with Pressure Release (SKU:055400)
 - 70mm MI - Light Alloy with Pressure Release (SKU:055600)
 - GM with Pressure Release (SKU:055900)
 - 70mm MI - Light Alloy (SKU:055700)
 - 75mm FRT - Light Alloy (SKU:055000)
 - 100mm FRT - Light Alloy (SKU:055100)
 - 100mm MRT - Light Alloy (SKU:055300)
 - 140mm FRT - Light Alloy (SKU:055200)
- For Forestry Blank Caps see page 24.

Breechings

Manufactured in heat treated light aluminium alloy or gun metal. 70mm Instantaneous inlets and outlets to SNZ PAS 4505 standard.

Models

- Firemaster Controlled Dividing Breeching 70mm MI x 70mm FI (x2) (SKU:053800)
 - Firemaster Uncontrolled Dividing Breeching 70mm MI x 70mm FI (x2) (SKU:053700)
 - Firemaster Uncontrolled Collecting Breeching 70mm FI x 70mm MI (x2) (SKU:053900)
- For Forestry Breechings see page 25.

Options

Storz or screw threads to inlets and outlets available to customer requirements.

70mm FI - Light Alloy with Pressure Release (SKU:055400)

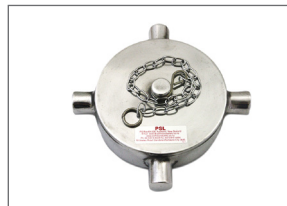

70mm MI - Light Alloy LA with Pressure Release (SKU:055600)

70mm MI - Light Alloy GM with Pressure Release (SKU:055900)

70mm MI - Light Alloy (SKU:055700)

100mm FRT - Light Alloy (SKU:055100)

100mm MRT - Light Alloy (SKU:055300)

Firemaster Controlled Dividing Breeching 70mm MI x 70mm FI (x2) (SKU:053800) (SKU:058500)

Firemaster Uncontrolled Dividing Breeching 70mm MI x 70mm FI (x2) (SKU:053700)

Firemaster Uncontrolled Collecting Breeching 70mm FI x 70mm MI (x2) (SKU:053900)

ADAPTORS / FITTINGS / FIRE HARDWARE

Flow Meters

A compact ready to use, hydrant flow/static metering system designed to fit directly onto a hydrant standpipe, from which the flow discharges horizontally. Packed in a Nanuk protective case with foam inner for safe transportation and storage..

Models

Giddens Hydrant Flow Meter (SKU:063300)

3.3 - 54 l/s, comes in a Nanuk 925 Case

Firemaster Electronic Flow Meter (SKU:035600)

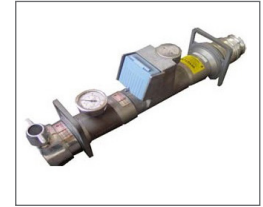

1.5 - 30.1 l/s, comes in a Nanuk 985 Case

TSI FlowMaster 250DL (SKU:146000) 0.5 - 50 l/s

Inlet Pressure Gauge 70mm (SKU:60030)

Giddens Hydrant Flow Meter (SKU:063300)

Firemaster Electronic Flow Meter (SKU:035600)

TSI FlowMaster 250DL (SKU:146000)

General Fire Fittings

Quality fire fittings manufactured from light aluminium alloy, gun metal or stainless steel. Customised sizes and options available upon request.

Models

Firemaster Flanges - All sizes and combinations can be made to order.

Firemaster Short Branch

70mm MI x 45mm (1¾") MBSP

- Light Alloy (SKU:068100)

- Gun Metal (SKU:068500)

70mm MI x 38mm (1½") MBSP

- Light Alloy (SKU:NPN100559)

- Dairy Cock - 38mm (1½") MBSP inlet (SKU:011300)

- Treacle Cock (SKU:011200) - Gun metal, 50mm (2")

MBSP inlet.

Tank Filler Cap and Strainer (SKU:064600)

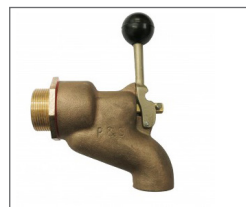

Stainless steel mesh spring and alloy body

Flanges

SKU:068100

Dairy Cock (SKU:011300)

Treacle Cock (SKU:011200)

Tank Filler Cap and Strainer (SKU:064600)

Inlet Manifolds & Collecting Heads

Precision machined in heat treated light aluminium alloy to SNZ PAS 4505 / BS336 standard. Spring loaded non return valves feature stainless steel components to prevent corrosion. Clapper type valves also available.

Models (in-line):

Two-way 70mm inlets x 75mm FRT

Spring Type valve (SKU:064000)

Two-way 70mm inlets x 100mm FRT

Spring Type valve (SKU:064100)

Clapper Type valve (SKU:064200)

Two-way 70mm inlets x 140mm FRT

Spring Type valve (SKU:035700)

Clapper Type valve (SKU:063900)

Two-way 64mm (2½") BI inlets x 100mm FRT

Spring Type valve (SKU:035700)

Three-way 64mm (2½") BI inlets x 100mm FRT

Spring Type valve (SKU:152600)

Three-way 64mm (2½") BI inlets x 140mm FRT

Spring Type valve (SKU:110400)

Models (Radial):

Three-way 70mm inlets x 140mm FRT

Spring Type valve (SKU:035800)

Three-way 64mm (2½") BI inlets x 140mm FRT

Spring Type valve c/w Blank Caps (SKU:063100)

Four-way 64mm (2½") BI inlets x 140mm FRT

Spring Type valve (SKU:111600)

Options

All combinations available in both in-line or radial configurations, plus we can design and build fully to your requirements.

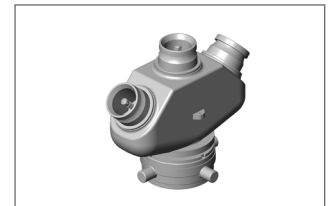

Some models are not a stock item and are manufactured to order. MOQ's may apply.

Two-way 70mm inlets x 100mm FRT Spring Type valve (SKU:064100)

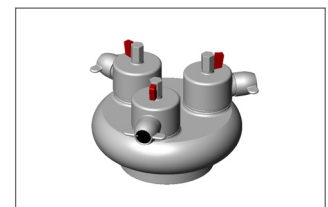

Two-way 70mm inlets x 140mm FRT Clapper Type valve (SKU:063900)

Three-way 64mm (2½") BI inlets x 100mm FRT Spring Type valve (SKU:152600)

Three-way 70mm inlets x 140mm FRT Spring Type valve (SKU:035800) (SKU:058500)

Three-way 64mm (2½") BI inlets x 140mm FRT Spring Type valve c/w Blank Caps (SKU:063100)

Four-way 64mm (2½") BI inlets x 140mm FRT Spring Type valve (SKU:111600)

Riser Main - Brigade Inlet Breechings

PSL's Brigade Inlet Breechings are manufactured from LG2 gun metal to SNZ PAS 4505 standard. All fitted with standard 70mm (2¾") male instantaneous adaptors, and come complete with individual clapper valves.

Models

- 100mm MBSP x 1 WAY** (SKU:066000)
- 100mm TABLE D x 1 WAY** (SKU:066100)
- 100mm MBSP x 2 WAY** (SKU:066400)
- 100mm TABLE D x 2 WAY** (SKU:066500)
- 150mm TABLE D x 4 WAY** (SKU:066600)

Tank Filler Cap and Strainer (SKU:064600)
Stainless steel mesh spring and alloy body

Optional Extra

Test Device - Brigade Inlet Breeching (SKU:072000)

Options

2½" (64mm) BI are available upon application. Other sizes and combinations to your requirements.

Some models are not a stock item and are manufactured to order. MOQ's may apply.

Ladders, Gantries & Shutters

10.5m AS ladders are made to exact standards and safety requirements by internationally known company.

Models

- AS Fire Appliance Ladders
- AS 464
- All sizes and configurations made to order.

100mm MBSP x 2 WAY
(SKU:066400)

150mm TABLE D x 4 WAY
(SKU:066600)

Test Device - Brigade Inlet
Breeching (SKU:072000)

As Fire Appliance Ladders

Ladder Gantry

Rise Main -Landing Valves

PSL's landing valves conform to SNZ PAS 4505 standard and are approved by the Insurance Council of New Zealand. All gun metal (LG2) construction, they come equipped with a blank cap and pressure release.

Models:

- 64mm MBSP** (SKU:066200)
- 64mm FLANGED - TABLE D** (SKU:066300)
- 64mm FLANGED - FF ANSI 150** (SKU:066900)
- 75mm FLANGED - FF ANSI 150** (SKU:066700)
- 75mm FLANGED - RF ASA 150** (SKU:066800)

Optional Extra:

Brigade Inlet Check Valve Flanged 70mm MI (SKU:066502) **Air Release Valve** (SKU:7214)

Options:

Other sizes and combinations to your requirements. Available with single lever or double pull adaptors.

64mm MBSP (SKU:066200)

64mm FLANGED - TABLE D (SKU:066300)

(SKU:0663-IND)

(SKU:066502) - PSL SPEC (SKU:NPN122719) - NON PSL SPEC

BEFORE REFURBISH

AFTER REFURBISH

Riser Main - Industrial Landing Valves

PSL offer a range of industrial quality landing valves as an alternative to our Premier range. Body in brass, aluminium hand wheel and polished gun metal blank cap and pressure release.

Models:

- 64mm MBSP** (SKU:0662-IND)
- 64mm Table D Flange** (SKU:0663-IND)

Options

Other sizes and combinations to your requirements.

64mm MBSP (SKU:0662-IND)

64mm Table D Flange (SKU:0663-IND)

FIRE HARDWARE / EXTINGUISHERS

Standpipes

Be it for accessing water from the local authority main for a fire or using one of our specially manufactured metered standpipes PSL standpipes are manufactured in-house, to assure value and reliability.

Models

Double Controlled Standpipe

with Double Lug Adaptors (SKU:034000)

with 70mm FI Adaptors (SKU:054100)

Uncontrolled Standpipe

Single Head (SKU:054300)

Double Head (SKU:054200)

Mechanical Metered Standpipe (SKU:034200)

Standpipe with Backflow Prevention

(SKU:035400)

Contractor Standpipe

70mm FI (SKU:054000)

64mm (2½") MBSP (SKU:054400)

Optional Extra:

LA Hydrant Key and Bar (SKU:054900-R)

LA Hydrant Key and Bar Industrial

(SKU:0549-IND)

Contractor Hydrant Key Fixed (SKU:054800)

Quick Release Clamp (SKU:064400)

Standpipe Clamp (SKU:119400)

Light Alloy Standpipe Plinth (SKU:064300)

Contractor Standpipe Base (SKU:054001)

Light Alloy 64mm (2½") FBSP

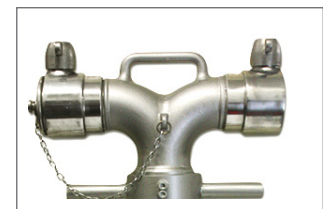

Double Controlled Standpipe with Double Lug Adaptors (SKU:034000)

Double Controlled Standpipe with 70mm FI Adaptors (SKU:054100)
