

The rugged 0.3kg ABE extinguisher conforms and is tested to EN3 standard. The 0.3kg is a single drawn aluminium cylinder painted red. Powder content is Mono-Ammonium Phosphate ABE type (85% MAP content).

The 0.3kg comes with a black handle, brass valve, nozzle and is fitted with gauge and safety pin seal. This reliable small compact unit is suitable for numerous applications particularly for CHAINSAW/TRAIL BIKE/FORESTRY requirements. Also available is the durable fully enclosed belt pouch for on hand use.
